

# [Food Waste Management]

## Meeting Minutes (3)

Location: Virtual Meeting

Date: 06/20/2023

Time: 09:45 A.M

Attendees: Bharath Meduri and Suyes Sapkota

### Agenda items

The meeting focused on discussing the implementation of personalized actions and fetching and displaying donated food images. The following points were discussed:

1. Specify the exact tasks or features individuals can access through their accounts.
2. Create web page that let users personalize their account settings.
3. Depending on the user's preferences or role, grant access to tailored content or features.
4. Develop a database or storage system to store the donated food images.
5. Retrieve the images from the database or storage system.
6. Design a user interface to display the food images in an organized manner.

Action items	Assignees(s)	Priority	Status
<a href="#">To enable personalized actions</a>	Suyes Sapkota	High	In Progress
<a href="#">To fetch and display donated food images</a>	Bharath Meduri	Low	In Progress

## Conclusion

The meeting concluded with a focus on the development of personalized account features, the creation of a web page for user settings, and the design of a user interface to organize and display donated food images.
