[Food Waste Management]
Meeting Minutes (4)

Location:	Virtual Meeting
Date:	06/27/2023
Time:	08:45 A.M
Attendees:	Bharath Meduri and Suyes Sapkota

Agenda items

In this meeting, we discussed the actions that needed to be taken for automated testing that needed to be performed for user authentication, user account interface, search, and filtering functionality. Also, we focused on new improvements (search and filtering functionality and food item selection) that need to be implemented. The following points were discussed:

1. Review Automated Testing Strategy.

2. Define Test Scenarios.

3. Enable sorting options to facilitate easier browsing and selection.

4. Provide an "Add to Cart" button or similar functionality for users to add selected items to their cart.

5. Enable sorting options to facilitate easier browsing and selection.

Action items	Assignees(s)	Priority	Status
To implement search functionality	Suyes Sapkota	Low	To Do
To enable food item selection.	Suyes Sapkota	High	To Do
To implement filtering functionality	Bharath Meduri	Medium	To Do

Conclusion

In the meeting, the team discussed the need for automated testing, planned improvements to search and filtering functionality, and the implementation of features such as sorting options and an "Add to Cart" button for enhanced user experience.
